CONFERENCES, WORKSHOPS, SEMINARS, SPECIAL EVENTS

December 3
BETHEL - AIR QUALITY IN ALASKA NATIVE COMMUNITIES COURSE. This is an entry-level course for environmental staff from Alaska Native Communities who are interested in air quality issues. The content is basic and assumes the participant has no background in science or air quality management. The course provides an understanding of the importance of clean air (outdoors and indoors) for the protection of human health and the total environment. Approximately half of the course will deal with ambient (outdoor) air and half of the course will deal with indoor air. We encourage attendance from environmental, housing, and health departments. Topics include: • Criteria Pollutants and the NAAQS; • Air Toxics; • Bioaccumulation; • Outdoor air quality concerns (road dust, trash burning, etc.) and possible solutions; • Indoor air concerns in tribal communities; • Building dynamics and weatherization; • Indoor air quality (IAQ) and asthma; • Controlling moisture and mold in the home; • Household hazardous materials and green cleaning; • Home heating safety; • Outreach: prevention of AQ/IAQ problems; and • Purple Air Network (Citizen Science). Instructors and participants will explore ways in which Alaska Native Communities can take action to solve air quality problems, protect human health, and preserve cultural values. This course consists of lectures, demonstrations, small-group activities, and a building walk-through. There will be hands-on practice with a comprehensive assessment checklist used to identify IAQ problems. For registration go to https://www7.nau.edu/itep/main/Training/training_aq_aknc. For more information, contact Mansel.nelson@nau.edu.

December
ANCHORAGE - ENVIRONMENTAL TECHNICIAN TRAINING: GPS/GIS BASICS FOR ENVIRONMENTAL WORKERS will be held at the APU Campus from 8am to 5pm. This class introduces students to basic GPS and GIS principles through hands-on exercises. Hand-held Garmin GPS receivers are used as part of a field mapping exercise and collected data are imported into GIS to allow calculation of basic spatial statistics and produce a map. Taught by instructors from Alaska Pacific University. Part of this class will take place outside regardless of weather conditions. Please wear appropriate clothing and bring your own water bottle. Training provided at no cost to qualified applicants. Minimum Qualifications: Must be at least 18 years old. Must have HS diploma or GED. Must be an Alaskan Resident. Must have contributed to Unemployment Insurance sometime during the last 5 years through current or previous job. Space is limited and preference given. To register for this class, go to https://www.surveymonkey.com/r/ETAP_GPS_GIS_Class_Registration or contact Meg Burgett at 907-202-9612 or email mburgett@akforum.org. Registration
**February 10 – 14, Anchorage - Alaska Chapter of the Wildlife Society 2020 Annual Meeting and Workshops** will be held at Alaska Pacific University. The theme this year is **Wildlife and Advancing Technologies**. Keynote speakers: **Dick Shideeler** will highlight methods to detect bear dens using recent and historic technology, **Matt Wooller** will share his expertise on applications of advanced isotope technologies to wildlife research, and **Britta Schroeder** will discuss current and potential drone capabilities for habitat and wildlife surveys. They are looking for participants interested in sharing their experiences using technology for wildlife research, management, or monitoring at the “Technology Show and Tell” segment. To complement our theme, **Wildlife and Advancing Technologies**, our poster session will include displays of technologies used in the wildlife field. Participants will have the opportunity to get hands-on experience or view demonstrations or hardware associated with these technologies. This could include information technology, sensors, equipment, or any tool used for research, data collection, or data processing. Our goal for this session is to show conference participants what type of technology is out there and give them inspiration for the future. If you have experience with technology you would like to share, then please submit an abstract for consideration. Additionally, we will offer Remote Participation this year. There are registration costs for both, online and in-person participation. This will be a trial year to test the feasibility of remote participation to our meeting. Remote participation will be limited to listening to sessions and presenting during select sessions from 11 through 13 February. You are able to choose remote participation as an option when registering on the website. To sign up for workshops, field trips or the Technology Show and Tell, you need to register for the conference at twsalaskameeting.com. For more information, go to http://twsalaskameeting.com/?post=678.

**WEBINARS, TELECONFERENCES & VIDEOS**

**November 25 (Teleconferenced Meeting)**
**Alaska Board of Game** will hold a non-regulatory meeting via teleconference at 1pm to consider all agenda change requests (ACR) submitted for the January and March 2020 meetings, and to address any other non-regulatory Board business. The Board will accept written public comment, due no later than November 20. Written comments may be submitted on the Board’s website at www.boardofgame.adfg.alaska.gov; or emailed as attachments only, to dfg.bog.comments@alaska.gov. The board will not be taking public testimony during the teleconference. A live audio stream of the meeting will be available at www.boardofgame.adfg.alaska.gov for the public to listen. The meeting agenda, ACRs, ACR policy, and other meeting materials will available online at www.adfg.alaska.gov/index.cfm?adfg=gameboard.meetinginfo&date=11-25-2019&meeting=tele. For more information about the meeting, contact the Department of Fish and Game, Boards Support Section at (907) 465-4046.
**November 27 (WEBINAR)**

TUNDRA BE DAMMED: BEAVER COLONIZATION if the ARCTIC will be presented by KEN TAPE, UAF Research Associate Professor, Geophysical Institute, Snow, Ice and Permafrost Group, at 10am. Using time series of satellite images, we have observed hundreds of new beaver ponds in tundra regions of western and northern Alaska. This talk will describe beaver movement into arctic tundra regions and some predicted implications for tundra ecosystems. Registration

**December 3 (TELECONFERENCE MEETING)**

BOARD OF FORESTRY will hold a teleconference meeting from 8am. to 3:45pm to discuss: • Forestry and forest practices budgets for fiscal year2020, which began July 1, 2019; • Education campaign on new wildland fire prevention laws, and a Board of Forestry update about wildland fire issues; • Coastal forest management issues, including reports on Tongass Roadless Rule litigation, the Mental Health Trust land exchange, timber sales under the state-federal Good Neighbor Agreement, and salvage harvest potential of beetle-killed spruce in the Matanuska-Susitna Borough; • Statewide forest management issues, including reports on Division of Forestry timber sales and Forest Resources and Practices Act implementation and effectiveness monitoring, and progress on the Alaska State Forest Action Plan; • Update on the Tongass Roadless Rule process • Proposed partnership between forest roads and outdoor recreation in the Rosie Creek unit of the Tanana Valley State Forest, near Fairbanks; Other forestry matters may be included on the agenda. Public comment is scheduled for 10am. The board meeting will be accessible via both teleconference and webinar. Teleconference call-in locations: • Juneau, at DNR fourth floor Conference Room; • Anchorage at DNR’s offices at 550 W. 7th Ave., Suite 1450; • Fairbanks at DNR’s large conference room. Those outside of Anchorage, Fairbanks or Juneau seeking to participate in the teleconference should contact Alison Arians at alison.arians@alaska.gov or at 907-269-8467 no later than Noon. on December 2. For a copy of the agenda, go to http://forestry.alaska.gov/whatsnew.htm. Contact Arians for additional information.

**December 3 (WEBINAR)**

RAPID CHANGE: 2019 in NORTHWEST ALASKA’S OCEANS and IMPACTS to ECOSYSTEMS and PEOPLE will be presented at 10am by GAY SHEFFIELD (Sea Grant), DONNA HAUSER (IARC), and RICK THOMAN (ACCAP). Summer 2019 was another remarkable year for the Bering and Chukchi Sea regions, with record early sea ice loss in the spring, very warm oceans and late freeze-up producing wide ranging impacts, from the ocean food web to individual and community activities. This webinar will provide an overview of the climate and ocean extremes, the biological ramifications and societal repercussions of another unusual summer around northwest Alaska. Registration at http://accap.adobeconnect.com/bering_sea/event/registration.html.

**December 4 (TELECONFERENCE)**

THE PERILOUS STATE of FEDERAL SCIENTIFIC RESEARCH: HOW SIDELINING SCIENCE THREATENS PUBLIC HEALTH will be presented at 9am AKST by Dr. LINDA BIRNBAUM. Join this call to hear Dr. Birnbaum’s perspective on the current
state of federal scientific research, the public health consequences of sidelining science, and what we can do to restore the role of science in policy. Dr. Birnbaum has been particularly effective at bringing forward the mounting scientific evidence of harm of exposures to certain chemicals that are now ubiquitous in our products and environment. Her discussion of the current science has helped to shift our understanding of exposures to include the dangers of chronic low dose exposures and the long-term effects of early lifetime exposures. Register for this call.

**December 4 (WEBINAR)**
ICE, WATER and PEOPLE – A LOOK into HOW GLACIAL LAKE OUTBURST FLOODS IMPACT ALASKAN COMMUNITIES will be presented by DINA ABDEL-FATTAH at 11am. Glacial lake outburst floods (GLOFs) are a natural phenomenon that result in the release of a significant amount of water via a glacial system, which has the potential to negatively and severely impact downstream communities. This webinar will look into two GLOF glaciers in Alaska – Suicide Basin in Juneau and Snow Glacier in the Kenai Peninsula. Both glaciers have recurring GLOFs that affect the downstream areas in Juneau and the Kenai Peninsula in a variety of ways. From homeowners, to tour operators, to electric companies, to emergency responders, these are but a few of the impacted stakeholder groups impacted by GLOFs. During the webinar, you'll learn about how GLOFs happen, their presence in Alaska, how stakeholders have been affected by these events, what are the available resources to understand and monitor these events, and what is the potential outlook for continued GLOFs in Alaska in the years to come. Registration.

To WATCH the presentation on ALASKA COMMON GROUND’S FORUM on the ANCHORAGE CLIMATE ACTION PLAN, go to http://akcommonground.org/climate-change-events/ or on YouTube at https://www.youtube.com/watch?v=e_ev2_r-h4c&feature=youtu.be.

New video that focuses on ALASKA’S ACIDIFYING OCEANS is available at https://alaskaseagrant.org/2019/08/26/new-video-focuses-on-alaskas-acidifying-oceans/. Ocean acidification is how scientists describe the lowering of the oceans' pH. The oceans today are roughly 30 percent more acidic than they were during the Industrial Revolution some 300 years ago. The rise in ocean acidification (OA) tied to higher levels of carbon dioxide being released into the atmosphere by fossil fuel burning and deforestation. As carbon dioxide (CO2) is released, about one-third gets absorbed by the ocean, making it more acidic. Northern waters, like those around Alaska, are particularly susceptible to OA because cold water can absorb more CO2. That's why Alaska and other high latitude seas will likely see the effects of OA sooner than areas farther south. The chemistry of OA is well understood, but how this process affects fish and other marine resources is more of a mystery. Given Alaska's nearly two-billion-dollar seafood industry, and the state's reliance on fish, marine mammals, shellfish and other ocean products for subsistence and recreation, the risks of OA in Alaska are profound. Follow UAF assistant professor AMANDA KELLEY, a top researcher on ocean acidification's effects in Alaska, for a couple of days in Seward and in Kachemak Bay to better understand her research, and how tribal members and other citizen
scientists are getting involved in monitoring OA.

GRANTS/AWARDS/SCHOLARSHIPS/FELLOWSHIPS/ CONTESTS/RFPs

November 30
Deadline for submission for the NOAA MARINE DEBRIS ART CONTEST. All students in grades Kindergarten through 8th grade from all U.S. states and territories—recognized public, private, and home schools are eligible to participate. Schools, including home schools, must be in compliance with federal and state civil rights and nondiscrimination statutes are eligible to participate. Students must work individually. Criteria for Art & Description: Each entry must be composed of a piece of artwork and a description (on entry form). All must meet the requirements outlined on the NOAA Marine Debris Program Annual Art Contest Entry Form. Students are highly encouraged to check out the rest of the NOAA Marine Debris Program's website for information about marine debris. Entries (entry form and artwork) should be mailed to: Marine Debris Art Contest, NOAA Marine Debris Program, 1305 East-West Highway, SSMC4, 10th Floor, Silver Spring, MD 20910. Please note that entries will not be returned. If you have any questions, please email marinedebris.web@noaa.gov.

December 3
Deadline for applications for the NATIONAL FOREST FOUNDATION COMMUNITY CAPACITY and LAND STEWARDSHIP PROGRAM (CCLS) that provides funding to increase the capacity of organizations implementing large scale restoration projects that benefit National Forests and Grasslands. Funding for CCLS is currently provided by the US Forest Service Pacific Northwest Region and Alaska Region, and coordinated with multiple additional regional leadership partners. Applicant Eligibility: 501(c)3 nonprofits, universities, and federally recognized Native American tribes are eligible to receive CCLS grants. If an organization does not meet this eligibility requirement, it must utilize an eligible fiscal sponsor, in compliance with the NFF Policy on Fiscal Sponsorship. Webinar about Southeast Alaska CCLS Program will be held on November 14 at 11am AKST. To register for the webinar, go to Register. Full program details and application instructions are available in the Request for Proposals (RFP) document at [Download the RFP Here] Informational Webinar: An informational webinar for the Southeast Alaska CCLS Program will be held on November 14, at 11:00 am AKST.

December 10
Deadline for nominations for the 2020 ALASKA OCEAN LEADERSHIP AWARDS to the ALASKA SEALIFE CENTER (ASLC). ASLC established the Awards to recognize those who have made significant contributions to ocean sciences, education, and resource management in Alaska. Awards will be presented at the Alaska Marine Gala on February 8. To see the award categories and other information, go to https://www.alaskasealife.org/news_item/103.

December 16
Deadline for applications for the TEMPER of the TIMES FOUNDATION
ENVIRONMENTAL ADVERTISING GRANTS to promote the use of standard marketing concepts for increasing awareness about wildland conservation and restoration initiatives. Recognizing that organizations working to protect the environment have limited access to paid media in general, the foundation provides funds to underwrite advertising designed to promote the conservation and restoration of native wildlife, plants, and ecosystems in the United States. The foundation also supports earned media campaigns and other efforts to communicate about conservation and restoration initiatives and actions. The foundation awards grants of between $5,000 and $15,000 to help underwrite advertising that will lead to measurable outcomes for wildland ecosystem conservation and restoration in the United States. Grants may be used to fund the production of print, radio, or television ads; to pay for advertising space or airtime; and/or to produce or distribute pamphlets, books, videos, or press packets. Because grants are for wildland ecosystem advertising campaigns (not for general organizational support), they may not be used to cover costs associated with the production of organizational newsletters, membership campaigns, or for staff salaries. In addition, the foundation does not fund lobbying efforts or candidates for political office. To be eligible, applicants must be a nonprofit organization classified as tax exempt under section 501(c)(3) of the Internal Revenue Code. To see complete program guidelines and application instructions, go to Link to Complete RFP.

**January 8**
Deadline for pre-proposals for the COASTAL AND MARINE HABITAT RESTORATION GRANTS, the $4 million in Community-based Restoration Program funding available for coastal and marine habitat restoration in 2020. Award amounts range from $75,000 to $3 million over one to three years. The pre-proposal process will help determine if proposed projects are well-suited for this specific funding competition and if a full application is warranted. The **full application deadline**, which will be in April 2020, will be sent to eligible applicants that were successful in the pre-proposal process. For more information go to https://www.fisheries.noaa.gov/grant/coastal-and-marine-habitat-restoration-grants. A webinar will also be held December 5 at 9 am AKST. Login information here. Contact Erika Ammann at erika.ammann@noaa.gov or call (907)271-5118 if you have any questions.

**February 21**
Deadline for submissions to the FEDERAL SUBSISTENCE MANAGEMENT PROGRAM ANNUAL ART CONTEST for ALL STUDENTS IN ALASKA, GRADES K-12. This year, entries may focus on either subsistence wildlife or fish, and two winners will be selected. The winners’ artwork will be published on either the cover of the 2020-2022 Subsistence Management Regulations for the Harvest of Wildlife on Federal Public Lands in Alaska book, or the 2021-2023 Subsistence Management Regulations for the Harvest of Fish and Shellfish on Federal Public Lands in Alaska book, both distributed statewide. The art contest offers an exciting opportunity for students to express their talent and creativity while sharing their knowledge of subsistence resources. Each entry must be 8.5 by 11 inches and have a theme related to subsistence species or activities in Alaska. All artwork must be original. Submit entries to: Office of Subsistence Management Attn: Caron McKee, 1011 E. Tudor Rd., Mail
Stop 121, Anchorage, Alaska 99503-6199. The official rules and entry forms are available by contacting the Office of Subsistence Management at (800) 478-1456 or by email at subsistence@fws.gov, or go to www.doi.gov/subsistence/art-contest. Scanned student artwork may be retained for use in website or social media posts, brochures, regulation books, and other publications produced by the Office of Subsistence Management.

**March 15**
Deadline for submissions for the **2020 ALASKA JUNIOR DUCK STAMP CONTEST** from K-12 students. Participants select a species of North American waterfowl, do research on this species and its habitat, and then depict their findings through art and writing. Prizes, cash awards, and national recognition await the winners. Get to know North America’s waterfowl and enter the contest! Visit the Jr. Duck webpage or contact Tamara_Zeller@fws.gov/ (907) 786-3517.

DEADLINES

**November 23**
Deadline for comment on the **ENVIRONMENTAL ASSESSMENT (EA) OF CONOCO PHILLIPS’ WINTER EXPLORATION PLANS**. Giving the public only two weeks to comment, the BLM again determined that these exploration plans warrant only an assessment and not a full impact statement. There are no public hearings planned. The proposed project is composed of several elements and is designed to meet the applicant’s needs and objectives, including: •Access to drilling locations and water supply lakes in a way that allows for maximum operations during the winter season in a cost-effective manner, while minimizing environmental impact. •Drilling up to six exploratory wells to acquire sufficient subsurface information to satisfy the applicant’s economic and exploration performance criteria. •Testing up to four exploratory wells to obtain further data on the wells. •Retrieving data logger from one plugged and abandoned (P&A) well location. •Compliance with all related requirements of the NPR-A leases, Record of Decisions (RODs), and all associated laws, regulations, permits, and approvals. Alternatives to the proposed project are evaluated on the basis of their effectiveness in meeting these objectives. To see the EA, go to https://eplanning.blm.gov/epl-front-office/projects/nepa/116310/162046/197677/Draft_Conoco_Exploration_2019_EA.pdf. For more information or to submit comments, contact Donna Wixon at dwixon@blm.gov.

**November 30 (ADDITIONAL INFORMATION)**
Deadline to respond to an Alaska Department of Environmental Conservation (DEC) 6-QUESTION SURVEY ABOUT NONPOINT SOURCE (NPS) WATER POLLUTION in Alaska. The responses to these questions will help guide DEC’s priority focus over the next 5 years for addressing nonpoint source pollution. Responses are anonymous. Feel free to share the survey link with others. To respond to the survey, go to https://www.surveymonkey.com/r/FPG7B2W. For more information, contact Laura Eldred at (907) 376-1855 or email laura.eldred@alaska.gov.
December 2
Deadline for applications to serve on the NORTH PACIFIC RESEARCH BOARD (NPRB) ADVISORY PANEL for the seat representing the Gulf of Alaska and up to two Science Panel seats representing Social Science and/or Indigenous Scholarship. For details, go to https://www.nprb.org/news/detail/advisory-and-science-panel-openings-nominations-and-self-nominations-close.

**December 5**
Deadline for comments at the Regulatory Commission of Alaska (RCA) on a docket regarding FULL or PARTIAL REGULATION (OR DEREGULATION) of RESIDENTIAL and COMMERCIAL REFUSE (TRASH COLLECTION) SERVICE, which includes an investigation into the practices and pricing models used within the industry. An order has been released opening Docket I-19-001 and issuing a list of questions for response from refuse utilities and other interested persons. For more information or to comment, please click on Docket I-19-001 through this link or email to rca.mail@alaska.gov.

December 6
Comments are due on the APDES Draft Permit for an Alaska Pollutant Discharge Elimination System (APDES) permit for the KETCHIKAN PULP COMPANY WARD COVE LANDFILL. Permit documents are available at https://dec.alaska.gov/water/wastewater/public-notices#AK0053392. For more information or to submit comments, contact Marie Klingman at 907-451-2101 or email marie.klingman@alaska.gov.

**December 9**
Comments are due on the HUMPBACK WHALE CRITICAL HABITAT PROPOSED RULE. NOAA Fisheries is holding hearings related to our proposed rule to designate critical habitat for humpback whales. This is one of five hearings. The hearings will begin with a brief presentation by NOAA Fisheries that gives an overview of critical habitat under the ESA and a summary of the relevant proposed critical habitat designation. Following the presentation, members of the public will have the opportunity to provide oral comments on the record regarding the proposed designation. To submit comment, go to www.regulations.gov and search on “NOAA-NMFS-2019-0066” for the humpback whale proposed rule.

**December 16**
Deadline for comments on the DRAFT ENVIRONMENTAL IMPACT STATEMENT, ALTERNATIVES to a PROPOSED ALASKA ROADLESS RULE. The United States Department of Agriculture (USDA) is proposing to exempt the Tongass National Forest from the 2001 Roadless Area Conservation Rule, which prohibits tree harvest and road construction/reconstruction within inventoried roadless areas with certain limited exceptions. In addition, the proposed rule would provide an administrative procedure for correcting and modifying inventoried roadless area boundaries on the Chugach National Forest. For more information, go
January 5
Deadline for a design for a **DIGITAL LOGO DESIGN** for the **ALASKA INVASIVE SPECIES PARTNERSHIP** In 2018, the Committee for Noxious and Invasive Plant Management officially changed its name to the AKISP to reflect an all-taxon approach to invasive species management in Alaska. We’re now looking for a new, creative, digital professional design that incorporates our name (or acronym or both), outline of the state, and represents all-taxa (marine, freshwater, and terrestrial species). A high resolution, color PDF is required. Please contact Danielle Verna at dverna@pdx.edu with questions and to submit your logo design. The winning design will be featured on letterhead, future communications, and outreach materials of the AKISP. The winner will receive free registration to the Annual Invasive Species Workshop to be held in Anchorage in fall 2020. For more information, go to https://www.uaf.edu/ces/invasives/aisp/.

**December 13 (EXTENDED)**
Deadline extended for comments on the **PROPOSED BP-HILCORP DOCKETS** P-19-015, P-19-016, and P-19-017) applications, for **REQUEST for WAIVER, and the PETITIONS for CONFIDENTIAL TREATMENT**. On September 27, 2019, three applications were filed jointly by BP Pipelines (Alaska) Inc. (BPPA) and Harvest Alaska, LLC (Harvest Alaska), a wholly-owned subsidiary of Hilcorp Alaska, LLC (Hilcorp). In Docket No. P-19-015, the application requests approval of Harvest Alaska to acquire BPPA's indirect 32.0% ownership interest in PTE Pipeline, LLC. In Docket No. P-19-016, the application requests approval of Harvest Alaska to acquire BPPA's indirect controlling interest in Milne Point Pipeline, LLC, the operator of the Milne Point Oil Pipeline under CPCN No. 329 and the Milne Point Natural Gas Liquids Pipeline under CPCN No. 638. In Docket P-19-017, the application requests approval of Harvest Alaska to acquire BPPA's entire interest in the Trans-Alaska Pipeline System (including its interest in the Valdez Marine Terminal) operated under CPCN No. 311. With each application, Harvest Alaska filed a motion requesting waiver of the requirement under 3 AAC 48.625 that Harvest Alaska file audited financial statements. Harvest Alaska, Hilcorp, and Harvest Midstream I, L.P., filed into each docket a petition requesting confidential treatment of their audited and unaudited financial statements submitted in support of the applications. To access the applicants' filings, click on the "Documents" tab in each docket: Docket No. P-19-015; Docket No. P-19-016; Docket No. P-19-017. To submit comments, click here. Note: While submitting a comment, please make sure you enter a valid email address and follow each step all the way through the "Finished" button. Please do not use your browser's "Back" button as this may cause errors in your submission. If you do not wish to use the online comment portal, you may send your comments along with the docket number via email to rca.mail@alaska.gov.

**EVENTS & MEETINGS in ANCHORAGE, EAGLE RIVER & GIRDWOOD**

November 25
ALASKA CHAPTER of the SIERRA CLUB will meet at 7pm at the Anchorage Recreation Center, 4855 Arctic Blvd. MICHICHEL DAVIS and CATHERINE INMAN from the PALMER HAY FLATS will discuss how the wetland habitat provides home for many species of birds and hiking, sport fishing and canoeing; next steps we envision for the organization organization's history, and their accomplishments. For more information, contact alaska.chapter@sierraclub.org.

December 3
Public Hearing for will be held from 4 to 7pm in the Wilda Marston Theater, Loussac Library, on the HUMPBACK WHALE CRITICAL HABITAT PROPOSED RULE. The hearings will begin with a brief presentation by NOAA Fisheries that gives an overview of critical habitat under the ESA and a summary of the relevant proposed critical habitat designation(s). This proposed rule summarizes relevant information regarding the biology and habitat use of humpback whales, the methods used to develop the three proposed critical habitat designs, and the proposed critical habitats for the Central America (CAM), Mexico (MX), and Western North Pacific (WNP) DPSs of humpback whales. Following the presentation, members of the public will have the opportunity to provide oral comments on the record regarding the proposed designation(s). Members of the public will also have the opportunity to submit written comments at the hearing. Written comments may also be submitted until December 9. Electronic copies of the proposed rule and supporting documents are available at https://www.federalregister.gov/documents/2019/10/09/2019-21186/endangered-and-threatened-wildlife-and-plants-proposed-rule-to-designate-critical-habitat-for-the and https://www.fisheries.noaa.gov/action/proposed-rule-designate-critical-habitat-central-america-mexico-and-western-north-pacific. Deadline for comments is December 9.

December 5
GREAT LAND TRUST WINTER PARTY will be held from 5:30 to 8:30pm at the Williwaw, 609 F Street. Help kick off GLT’s 25th anniversary and congratulations for protecting the special natural places that are so important to our quality of life. Free admission. RSVP to lkugel@greatlandtrust.org or call 907-278-4998.

**December 8
SIERRA CLUB’S HOLIDAY PARTY will be held at Kincaid Chalet at 4pm. Sixteen CONSERVATION ORGANIZATIONS will be present to DISCUSS THEIR WORK on increasing Alaska’s overall environmental health. This is a potluck so bring food to share. For more information, contact alaska.chapter@sierraclub.org or go to https://www.sierraclub.org/alaska.

**December 11
TRAIL TALES will be held at 7pm (doors open at 6:30) at the Anchorage Museum. (Note New Venue). Alaska Trails is excited to team up with the Chugach Park Fund for the 17th installment of the Trail Tales storytelling series. In the spirit of Arctic Entries, storytellers will share seven-minute stories about their trail experiences, adventures and life in general. Come enjoy this fun event and support Alaska Trails and the Chugach
MEETINGS & EVENTS OUT OF ANCHORAGE

November 23
KETCHIKAN - The USDA FOREST SERVICE, ALASKA DEPARTMENT OF FISH & GAME, and ALASKA TRAPPERS ASSOCIATION will present INFORMATION ABOUT TRAPPING and SHARING TRAILS in the KETCHIKAN AREA at 6 p.m. at the Southeast Alaska Discovery Center. SHARING ALASKA’S TRAILS, a 30-minute video produced by the Alaska Trappers Association, will be shown. Presenters will display and demonstrate how to open and work different types of traps. If you are unable to attend, you can find the video online at: http://www.adfg.alaska.gov/index.cfm?adfg=trapping.sharing. For more information on the presentation, contact the Ketchikan Misty Fjords Ranger District at 907-228-4139.

November 23
FAIRBANKS – The NORTHERN ALASKA ENVIRONMENTAL CENTER ANNUAL FUNDRAISER & AUCTION, NIGHT FOR THE NORTH! will be held from 6 to 10pm at the Raven Landing. Join the Northern Center for a night of friends, music, fun, and artwork at our annual fundraiser and auction. Bid on great made-in-Alaska items, adventurous experiences, and artwork, including this year’s featured painting by APAYUQ MOORE. Fairbanks musician HANNAH CORRAL will join us with live music for the evening. Tickets available here: https://conta.cc/2oB2Pht. To donate an item for the auction, including desserts, please fill out this form here. RSVP on Facebook here.

November 25
FAIRBANKS - Public information session on the THERMAL REMEDIATION OF PFAS OF CONTAMINATED SOIL will held at 6:30pm at the Moose Creek Fire Department. Hear about what is being done, the regulatory oversight, testing, and health and safety concerns. Before the meeting watch a film screening of The Devil We Know, sponsored by Citizens for Clean Air at 5 pm. For more information, contact Jeanne Olson at (907) 370-3213. BYOC (bring your own chair).

November 25 & 26 (TELECONFERENCE AVAILABLE)
BETHEL - The BETHEL FISH & GAME ADVISORY COMMITTEE will hold a public meeting in the ADF&G Office beginning at 6pm on Monday. Please call 1-800-504-8071 code: 5432709 to participate by teleconference. Agenda items include: Elections; Kuskokwim Salmon Season Summary; Alaska Board of Game Western Region meeting proposals 1-18; Alaska Board of Game Interior and Eastern Arctic Region proposals 95-119. For further information contact Janet Bavilla at 907.543.2931.

**December 26
KENAI/SOLDOTNA - KENAI/SOLDOTNA FISH & GAME ADVISORY COMMITTEE will hold a public meeting at the Cook Inlet Aquaculture building at 6:30pm. Agenda topics will include Kodiak Finfish proposals. For more information contact Mike Crawford at 252-2919 or contact ADF&G Boards Support at 907-267-2354.

**December 11
FAIRBANKS - The FAIRBANKS FISH & GAME ADVISORY COMMITTEE will hold a public meeting in the Tanana Valley Fisheries Center at the Ruth Burnett Sport Fish Hatchery at 6:30pm. Agenda includes: Finalize Comments for Arctic Western Board of Game Meeting and Airport Trapping Comments. For further information contact Nissa Pilcher at 907.459.7263 or email nissa.pilcher@alaska.gov.

**December 11
HAINES - The CHILKAT BALD EAGLE PRESERVE (CBEP) ADVISORY COUNCIL will meet at 10am in the Haines Assembly Chambers. The Alaska State Park CBEP Advisory Council is a legislatively designated 12 member panel delegated to recommend and assist the Division of Parks and Outdoor Recreation for the planning, management, and resource and environmental protection of the Eagle Preserve with the goal to preserve eagle and salmon habitat and still maintain a balance of recreational opportunities, commercial operations and resolve user conflicts while fulfilling the Alaska State Park mission and Preserve management plan. The Advisory Council meetings are open to the public, to provide an opportunity to share your opinions about how best to manage and preserve the unique natural, cultural and historic features of the Chilkat Bald Eagle Preserve, while enhancing the enjoyment for all visitors and future generations.

**December 12
HOMER - Enjoy stories of yesteryear from children of Homer's original homesteaders. “Homestead Kids: Tales from Diamond Ridge and Stariski Creek” featuring LAURA LOFGREN BARTON and STEVE WALLI will take place following KACHEMAK HERITAGE LAND TRUST'S ANNUAL MEETING at 6pm at the Islands and Ocean Visitor Center. Free and open to the public. Refreshments will be served.

ITEMS of INTEREST

**THREATS to DRINKING WATER and PUBLIC HEALTH IN ALASKA: THE SCOPE of the PFAS PROBLEM, CONSEQUENCES of REGULATORY INACTION, and RECOMMENDATIONS. DIANA DEFAZIO, Environmental Health Program Coordinator with Alaska Community Action on Toxics, is the primary author of the report. TIMOTHY TYNAN, graduate student intern with Alaska Community Action on Toxics, wrote the health effects section. Tim is a dual degree master's student at Emory University in the PA Program at the medical school and the Rollins School of Public Health. The report is available at https://www.akaction.org/.

**It was a shock to learn of RICHARD NELSON's death! For those who have enjoyed
the wonderful nature stories told in his quiet voice that expressed his abiding appreciation for everything he experienced, it is a great loss. To HEAR RICHARD’S STORIES again, go to https://www.encountersnorth.org/, sit back and enjoy.

ALASKA’S CHANGING ENVIRONMENT is a newly released publication that compiles observations of physical and biological change in and around Alaska. The publication, which is intended for a general audience, focuses on the time period 2014 – August 2019, but often provides information from earlier decades for historical context. Using mostly visualizations and photos, Alaska's Changing Environment demonstrates monumental shifts in temperature, sea ice, glaciers, permafrost, plants, animals, the ocean, and other areas. The International Arctic Research Center intends to update this product every three years with the most current information available. To see the web version with downloadable graphics go to Download the print publication.

The EVERY KID OUTDOORS PROGRAM provides ALL CURRENT FOURTH GRADE STUDENTS and THEIR FAMILIES with FREE ACCESS to NATIONAL PARKS and more than 2,000 other federal public lands for a year from September 1, 2019 through August 31, 2020. To obtain their free pass, fourth grade students go to the Every Kid Outdoors website. Educators can print paper vouchers for each of their students and access educational activities related to federal lands and waters.

VOLUNTEER and BOARD OPPORTUNITIES

December 5
Deadline for applications for NEW BOARD MEMBERS for the ALASKA WILDLIFE ALLIANCE. Regardless of whether you’re a seasoned Alaska wildlife advocate, or new to serving on a nonprofit board, we want you to apply! We are looking for qualified, diverse applicants to help us determine the future of Alaska Wildlife Alliance and our important programs. Learn more and submit your application online today!

The SIERRA CLUB ALASKA CHAPTER is recruiting a CHAIR and SECRETARY VOLUNTEER POSITIONS. To inquire, please email Alaska.chapter@sierraclub.org.

EXPERIENCE RURAL COMMUNITIES WHILE ASSISTING FELLOW ALASKANS. A unique volunteer opportunity awaits those outgoing individuals located in Alaska interested in experiencing life outside the urban centers. Immerse yourself in the Alaskan Native culture while giving back by providing a valuable service to those in need. ABDC is currently RECRUITING for TAX PREPARERS and TEAM LEADERS/EDUCATORS to TRAVEL to RURAL ALASKA; experience is helpful but not required as training is provided. Training begins in December and most travel is completed in February, with some travel in March. Recruiting is currently open; weeklong leaders/educators and weekend preparers needed. Interested? Send an email inquiry with your (first and last) name indicating how you heard of the program to ellen@abdc.org.

SITKA - A FULL-TIME AMERICORPS VOLUNTEER for PACIFIC HIGH SCHOOL to
run their unique school meal program in which fresh, nutritious, homemade meals are prepared and served by students as part of a service-based culinary arts class. PHS has recently developed a school garden that is adjacent to the kitchen/lunch area, from which culinary herbs, salad greens, and root vegetables are grown and harvested for use in the breakfast/lunch program. The ideal candidate will have basic food preparation skills and the ability to follow recipes precisely, strong computer literacy, and comfort working with at-risk students in an alternative school setting. The volunteer must be able to problem solve independently and be flexible enough to meet changing school and student needs. This is a full-time position serving 1700 hours over the course of one year. For more information, please contact Mandy Summer, PHS principal, summersm@sitkaschools.org or call 907.966.1375.

HABITAT FOR HUMANITY ANCHORAGE (HFHA) is recruiting BOARD MEMBERS who are from diverse areas of Anchorage and are passionate about affordable housing in the Anchorage area. Habitat for Humanity Anchorage’s mission is to work in partnership with people throughout the community to build houses, build hope, and change lives. We do this by building and renovating simple, decent, and affordable houses and by using our voice in the community to make adequate housing a matter of conscience and action. For more information email executivedirector@habitatanchorage.org or call (907) 272-0800.

ANCHORAGE AUDUBON needs a COMMUNICATIONS TECHNICIAN to assist with Newsletters and the New Audubon Facebook page. If you are a hotshot writer and completely at home with Birds, Facebook, and Online Newsletter production, we’d love to give you the dubious title of Press Secretary. Just contact Keys at cic@anchorageaudubon.org.

INTERNSHIP

2020 ALASKA CENTER FOR ENERGY & POWER (ACEP) UTILITY STUDENT INTERNSHIPS - Are you a junior or senior engineering, computer science, math, economics student with a 3.0+ GPA and an interest in working on energy projects to benefit Alaskan communities? Are you interested in gaining hands-on experience in the utility industry across the state, on the railbelt or in remote communities? Join UAF’s ALASKA CENTER for ENERGY and POWER’S PROGRAM connecting UA students with utilities in communities across the state. Join our team for Spring/Summer 2020! Go to http://ausi.alaska.edu for more information or contact Heike Merkel at 970.718.2817 or email hmerkel@alaska.edu. Interns will be partnered with one of Alaska’s utilities for a 12-week summer assignment. Interns can anticipate working with technical staff and field personnel on assignments that could include effective system management, asset deployment and integration, equipment performance analysis, and stakeholder consultation.

Organizations in Alaska can APPLY to be a HOST SITE FOR SUMMER INTERNSHIP PROGRAM. The Institute for Tribal Environmental Professionals – Environmental Education Outreach Program at Northern Arizona University in Flagstaff, Arizona is
seeking air quality focused offices and programs to **HOST a COLLEGE STUDENT** for an **8-WEEK SUMMER INTERNSHIP**. Tribal environmental offices, EPA offices, and other tribal environmental organizations are encouraged to apply. The interns will be highly motivated undergraduate or graduate students majoring in environmental or related careers from different colleges and universities nationwide. ITEP provides each student intern with a $4,000 stipend, and limited housing and travel allowances. The host site provides a workplace and supervision for the intern. The projects MUST focus on addressing air quality issues in tribal communities. Submit an application online at [http://www7.nau.edu/itep/main/eeop/Internships/ssi_host](http://www7.nau.edu/itep/main/eeop/Internships/ssi_host) by **January 17**. For more information, contact ITEP Intern Coordinator at EEOP-INTERN@nau.edu.

**DISCOVERY CENTER INTERNSHIPS** for the **ANCHORAGE MUSEUM** to interact with museum visitors and engage with the public in the Discovery Center. Opportunities and training may include developing and facilitating educational experiences, with a focus on the Discovery Center, Thomas Planetarium, and CoLab. Interns will receive training and support to lead programs independently, including but not limited to large scale public moments such as Planetarium shows, animal presentations, and science demonstrations. Interns may assist with creating resources and providing overall support to educational programming. Interns are expected to perform basic exhibit upkeep/maintenance, follow opening/closing procedures, and provide general cleaning of the Discovery Center and Thomas Planetarium. Internships run September 2019 - May 2020, start and end dates are flexible. Work schedule will be approximately 16 to 20 hours a week, including afternoons, nights, weekends, and holidays. Interns receive a $5000 stipend. For more information and to apply, visit [https://www.anchoragemuseum.org/about-us/employment](https://www.anchoragemuseum.org/about-us/employment). Applications are now being accepted on a rolling basis with interviews scheduled in the order applications are received.

**CULTURAL RESOURCES INTERN** for the **NATIONAL PARK SERVICE** will work with the Cultural Resource Team at the Alaska Regional Office in Anchorage to input cultural resource data in a newly developed database. Applicants should possess a background in historic preservation, landscape or historic architecture, archeology, or anthropology. Experience with databases, MS Word, ESRI GIS is helpful. To be eligible, applicants must be currently enrolled in an academic program or recently graduated (degree received May 2018 or later). Each applicant will need to submit a detailed resume with specific dates and hours worked per week, including references; a copy of current transcript (web-based PDF is sufficient); a short statement of interest and how this position will further your preservation studies and career goals. This is a 400-hour internship with a stipend of $15 per hour. Please email PDFs of application materials to Dael Devenport at dael_devenport@nps.gov.
